

Dear Admissions Committee,

I am writing to express my strong interest in pursuing a graduate degree program at your esteemed institution. After extensive research, I am convinced that your program is the ideal fit for my academic and career goals.

With a ranking of 501.0, your program is highly regarded in the United States, particularly in Newark, which is an ideal location for me to pursue my academic and personal interests. I am particularly attracted to your 24.0-month program, which provides a comprehensive and in-depth education in Management Accounting, Project Control, Computer Security Auditing, Global Environmental Problems, among other fields.

The affordable tuition of 500.0 is very appealing to me, and I am impressed by the range of financial assistance programs available to students. Additionally, I am pleased to note that the program starts from 2018-01-16 00:00:00, which is a perfect time for me to begin my studies.

Although I have not yet attained the minimum IELTS score of 6.0, I am confident that I will achieve this score before the start of the program. I am also excited to explore the numerous extracurricular opportunities available to students.

Thank you for considering my application. I look forward to the opportunity to contribute to the academic community at your institution.

Sincerely,

[Your Name]
